

ETI_HYGIENX

ETI HYGIENX® SERIES FOUR-CELL STAINLESS STEEL PLATFORM

The ETI HYGIENX® washdown floor scale is designed for strict sanitary environments.

The platform base is made of solid stainless steel AISI 304 vertical plates-providing superior protection against bacteria growth. The top plate opens to 75 degrees, allowing the entire scale interior to be washed and inspected.

The ETI HYGIENX® is ideal for food processing, pharmaceutical and chemical applications.

**The best solution
for advanced industrial
applications**

MAIN FEATURES

- Rugged washdown design, rigid 304 stainless steel frame constructed with continuous welds.
- Meets HACCP requirements.
- Manual drop-in-place safety bars.
- Four stainless steel, hermetically sealed, IP69K shear beam load cells.
- IP68/IP69K JB4QIP69K junction box included.
- Four adjustable stainless steel support feet.
- Top plate opens 75 degrees without the use of tools.

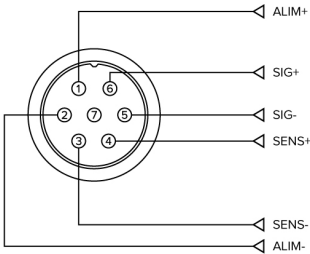

OPTIONS ONLY AVAILABLE AT TIME OF ORDER

- Calibration with CE-M single or double range approval.
- High resolution models for internal factory use.

ACCESSORIES

- Column support for weight indicator.
- Frames for flush floor installation.
- Access ramps.
